FEATURED MOBILE PROJECTS

1. Resumate - AI Resume Intelligence Platform

- Enterprise-grade resume builder and ATS analyzer built with Flutter, BLoC, and Clean Architecture.
- Implemented on-device PDF parsing via Syncfusion and multi-model AI routing with OpenRouter (14+ models fallback).

2. Montage - Personal Finance Engine

- Offline-first dual-database financial manager with automated synchronization between Hive and Cloud Firestore.
- Integrated Google Gemini AI for smart financial advice, FL Chart dynamic reporting, and voice expense dictation.

3. Medic - Telehealth & Clinic Booking App

- Dual-role telemedicine platform with Google ML Kit on-device image verification and GoRouter deep linking.
- Built concurrency-safe appointment booking with Firestore transactions and Supabase storage backend.

4. CollabTasker - Collaborative PM Suite

- Real-time task manager with Firestore Stream subscriptions, role-based security tokens, and FCM push notifications.

5. Antique Furniture - AR/AI E-Commerce Platform

- E-commerce Flutter app with Clipdrop AI background removal, Cloudinary CDN, and 2D Room Preview camera system.
